PLACES WHERE REPORTING CAN COST YOUR LIFE

Top 15 Nationalities and Countries

Nationality → Country of Death

- 1. Iraq (240 deaths):** The aftermath of the 2003 invasion and the subsequent war against ISIS made Iraq the deadliest country for reporters, who face attacks both from irregular armed groups and crossfire .
- 2. Syria (129 deaths):** The Syrian civil war, which began in 2011, has created one of the most dangerous environments for journalists. Reporters have been killed by government forces, rebel factions, and extremist groups like ISIS. Many were deliberately targeted, kidnapped, or executed for their coverage of the conflict and humanitarian crisis.
- 3. Philippines (113 deaths):** Drug cartels, political corruption, and paramilitary violence have claimed the lives of local journalists—especially those investigating organized crime networks .
- 4. Mexico (88 deaths):** Ongoing cartel conflicts and failures in state protection mechanisms expose journalists covering security and corruption beats to constant threats that often end in murder .
- 5. Pakistan (83 deaths):** The rise of extremist groups and impunity for attackers have created a hostile environment for those reporting on terrorism, corruption, or abuses of power .
